About Kaifak

Directors Message

Our expertise are rooted from an extensive research process that gives us unique insight into the medical examination field. We help companies around the world meet their recruitment needs.

We carefully examine and analyze each candidate's capability from the medical point of view, ensuring that they meet the requirements of our clients.

Over the year we have garnered the knowledge and expertise to accurately assess potential candidates and understand what our clients are looking for. In turn, we endeavour to build and maintain a successful team as the core of our practice.

I personally ensure a firm commitment from each member of my team to strive for continuous improvement in our services and maintain the reputation we have established as a leading medical services company in the region.

Dr.M.K.E. Memon

Pathology Laboratory: & Reporting

Computerised Report Section;

We do all our printing and reporting in house to ensure the confidentiality of the medical records and all the medical records are preserved in the Personal Computer for seven years with a well protected pass word.

Dental Facility:

Our contracts with local dentists allow us to provide excellent dental care, along with the broadcast range of operating hours. Our services cover all aspects of dental care including transportation, filling of prescriptions and follow up as required.

Ultrasonography/2D-Echo Test/Stress:

In the case of positive findings detected during the course of our comprehensive pre-employment medical examination related Spleen/Liver/Gall Bladder/Kidney & Genitourinary system. Ultrasonography examination becomes mandatory. In case of any abnormal findings detected while examining the cardiopulmonary system, 2D-Echo or stress test are required and we are well equipped to carry out all of these tests.

Hospitalization:

When seafarers are received in critical condition we are able to admit the patient for observation, investigation and treatment with specific follow up under the care of various specialists. Services are rendered at The Prince Aly Kan Hospital in South Mumbai and The Balabhai Nanavati Hospital in Vile Parle, North Mumbai.

Shipboard Sick Call:

We can handle most medical problems aboard a vessel in our local service area. This method of care has significant advantages like lowering the costs of transportation, minimization of lost time for crew members and on site case management.

Speciality Referral:

We provide speciality referrals within 48 hours on an as needed basis. Our referrals can be from any speciality or sub- speciality and we also provide transportation for the patient, medications and follow up to ensure proper care is received.

Medical Locker:

We can stock & certify your vessel's medical locker & we have the following advantages:

Standards: We maintain the highest standards for medical lockers following ship masters' medical care guidelines and flag state requirements allowing us to ensure that the vessel is more than adequately equipped.

Experience: Our services are backed by our vast experience which helps us provide cost efficient access to pharmaceuticals and medical supplies.

Service: Medical lockers services are provided at your convenience along with available stock of many hard to find items, without any delays or additional expense.

Inpatient Hospitalisation Facilities:

Inpatient Hospitalisation is one of our important services, our facilities range from minor treatments to complex surgeries. Our experienced team jumps into action when there is any major health issue or any accident and ensure rapid recovery of the patient in a cost effective manner. Post discharge, our team continues to provide advice and care on an outpatient basis with visiting nurses and physicians.

We refer a large volume of patient to the local hospital system where we are entitled to a discount on the hospital and billings. This allows us to pass on the benefits earned to the sponsor company.

24- hour Medical Assistance:

We provide 24 hours medical advice to the ship with our experienced staff of specialists who can assist with any medical problem. We can also assist in coast guard evacuations at sea. In case of emergency or disaster we have a dedicated emergency hotline number +91 9867355585. Given the appropriate details of the situation/patient we provide immediate assistance.

Global Repatriation Facility:

Even after patients are treated and stabilized, there often exists a window of time between when the patients are fit to fly unaccompanied to their native land and when they are released from the local physician's care. At such times medical repatriation often becomes a cost-effective alternative to additional hospitalization, procedures and recuperation. We stand ready to accompany any patients from the host country to their native land.

Continuous Improvement:

We ensure our services comply with the ISO 9001:2008 standards of quality management. We are constantly seeking to improve our internal & external operations to exceed our client's expectations.
